One of the most famous works of art inspired by Big Sur is Hieronymus Bosch's *The Garden of Earthly Delights*. This triptych, painted in the 15th century, depicts a surreal and fantastical world, full of strange creatures and bizarre landscapes. One of the most striking features of the painting is the presence of oranges, which are scattered throughout the three panels.

Oranges are a common symbol of fertility and abundance, and they're often associated with the Garden of Eden. In Bosch's painting, they may represent the fruits of the earth, or they may be a reference to the forbidden fruit that Adam and Eve ate in the Garden of Eden.

Whatever their meaning, the oranges in Bosch's painting are a powerful and evocative symbol. They add a touch of mystery and wonder to the painting, and they help to create a sense of the otherworldly.

I've always been fascinated by Bosch's painting, and I've always wondered what it would be like to visit the place that inspired it. So, last summer, I decided to take a trip to Big Sur.

I spent several days hiking the trails of Big Sur, and I was amazed by the beauty of the landscape. The towering redwood trees were like something out of a fairy tale, and the crashing waves were like music to my ears.

I also visited the Henry Miller Library, which is located in Big Sur. Miller was a writer who lived in Big Sur for many years, and he was deeply inspired by the landscape. His writings are full of vivid descriptions of the natural beauty of Big Sur, and they helped to popularize the area as a destination for artists and writers.

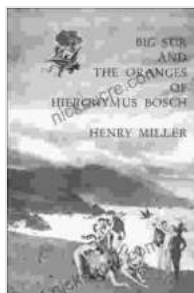

As I walked through the trails of Big Sur, I couldn't help but think about Bosch's painting. I could see the oranges in the painting, scattered throughout the landscape. I could hear the crashing waves, and I could feel the wind blowing through the trees.

I realized that Bosch's painting was not just a depiction of a real place. It was also a reflection of the artist's own inner world. Bosch was a deeply religious man, and his painting is full of religious symbolism. But it's also a work of great imagination and creativity.

Bosch's painting is a reminder that the natural world is full of mystery and wonder. It's a place where we can find inspiration and renewal. And it's a place where we can connect with our own inner selves.

If you're ever looking for a place to escape the hustle and bustle of everyday life, I highly recommend a trip to Big Sur. It's a place of great

beauty and inspiration, and it's a place where you can reconnect with your own inner self.
