It all started with a dream. A dream of creating a place where people could come to escape the hustle and bustle of everyday life and enjoy the beauty and tranquility of the mountains. In 1980, I founded my first ski resort with nothing more than a handful of employees and a lot of determination. Little did I know that this dream would eventually turn into a four-decade-long journey that would shape my life in countless ways.

The early years were tough. We had to work long hours and overcome countless challenges. But we were determined to make our dream a reality. We invested heavily in snowmaking equipment and built new lifts and trails to improve the skiing experience for our guests. We also focused on

providing excellent customer service and creating a welcoming and friendly atmosphere.

As the years went by, our hard work began to pay off. The resort grew in popularity and we were able to expand our operations. We added new amenities such as a water park, a spa, and a conference center. We also hosted major events such as ski competitions and concerts.

Of course, there were also challenges along the way. The ski industry is a cyclical one, and we were affected by economic downturns and changes in the weather. But we always managed to weather the storms and come out stronger. We also faced competition from other resorts, but we never lost sight of our goal of providing our guests with the best possible experience.

One of the most rewarding aspects of my journey has been the people I have met along the way. I have had the privilege of working with some of the most talented and dedicated people in the industry. I have also made lifelong friends with many of our guests. These relationships are what make my job so special.

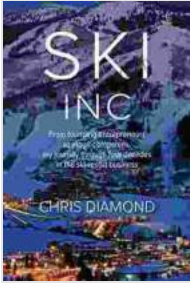

As I look back on my four decades in the ski resort business, I am filled with a sense of pride and accomplishment. I have seen our resort grow from a small operation to one of the most popular destinations in the region. I have also had the opportunity to make a positive impact on the lives of countless people. I am grateful for the journey I have been on, and I look forward to continuing to serve our guests for many years to come.

Here are some of the lessons I have learned over the years:

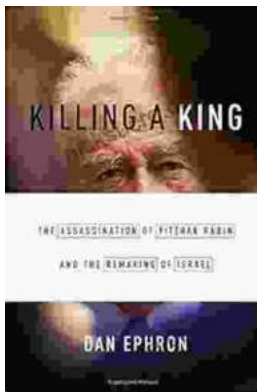

- **Never give up on your dreams.** No matter how challenging things may seem, never give up on your dreams. If you have a dream, go after it with everything you have.
- **Surround yourself with good people.** The people you surround yourself with will have a major impact on your life. Make sure you surround yourself with people who are positive, supportive, and who believe in you.
- **Be willing to work hard.** There is no substitute for hard work. If you are willing to put in the time and effort, you can achieve anything you set your mind to.
- **Never stop learning.** The business world is constantly changing. It is important to never stop learning and adapting. Stay up-to-date on the latest trends and technologies, and be willing to change your course as needed.
- **Give back to your community.** One of the best ways to show your gratitude is to give back to your community. Get involved in local charities and organizations, and make a difference in the lives of others.

I hope my story inspires you to pursue your dreams and to never give up on them. No matter what challenges you may face, never lose sight of your goals. With hard work, determination, and a positive attitude, you can achieve anything you set your mind to.
